

Christmas coordinates

Your task:

First, you must label your axes (x and y).

Then, you need to add numbers to your axes.

Finally, you will write 5 questions for your neighbour to answer about the Christmas picture.

Each question must:

- Refer to a specific coordinate

E.g. How many stars are there in (1, 12)?

REMEMBER: You need to have the answers ready, so your partner can check if the answers are correct.
