**On The Farm**

*Type:*  
**Logic**

*Game:*  
**Escaping  
Animals**

# **On The Farm Logic**

## **Escaping Animals**

**6 ducks, 8 hens, 2 horses, 3 cows,  
4 sheep and 2 pigs**

**All the farm animals have escaped  
from Old MacDonalds Farm. Put  
them all back into the fields BUT  
each field must have the same  
number of legs in it!**

# On The Farm Logic

## Escaping Animals

All the farm animals have escaped  
from Old MacDonald's Farm.  
Put them all back into the fields BUT  
each field must have the same  
number of legs in it!

# On The Farm - Logic

## Escaping Animals

### Provide

*Toy farm animals as follows:*

*6 ducks*

*10 hens*

*2 horses*

*3 cows*

*4 sheep*

*2 pigs*

*a farm board marked into 6 fields*

### Instructions

If not using toy farm animals, draw and cut out paper ones, (see example) making a small flap to stick to the back of each so they can stand up. Draw 6 fields and lay them side by side and stand the animals in front of them. The competitor can then put the animals in the 6 fields, counting the legs.

**All the farm animals have escaped from Old MacDonald's Farm.**

**Put them all back into the fields BUT each field must have the same number of legs in it!**
