

TinTin and the Hunt for Equivalent Fractions.

Please help me on my search for equivalent fractions.

=

Hmm Snowy, what would the next two equivalent fractions for one half be?

=

=

=

$$\frac{3}{4} = \frac{9}{12}$$

$$\frac{1}{2} = \frac{2}{3}$$

Is this an equivalent fraction? How can we find out?

How about this one? Can you find some more equivalent fractions?
