

Instructions

Build your own set of WW2 Airplane Top Trumps cards!

Write on all the airplane statistics on the cards using the information in the table.

Have a fun game of Top Trumps with your new cards!

Rules of Top Trumps

All the cards are dealt between the two players. The starting player chooses a category from his or her topmost card and reads out its value. The other player then reads out the value of the same category from their top card. The largest value (or the most recent date) wins the "trick", and the winner takes both the cards of the trick and places them at the bottom of his or her pile. That player then looks at their new topmost card, and chooses the category for the next round.

In the event of a draw, the cards are placed in the center and a new category is chosen from the next card by the same person as in the previous round. The winner of that round obtains all of the cards in the center as well as the top card from each player.

The winner is the player who obtains the whole pack.
