Dear Provost Williams C of E Primary School,

We are writing to request your help in calculating the number of migrants who entered Britain during the invasions of 410AD in order to inform the production of a new documentary entitled “410: The Creation of Britain”. The documentary considers the vast influx of migrants during the invasions of European tribes - such as the Angle, Saxons and Jutes - and how this mass-migration established the foundations for modern Britain.

The “410: The Creation of Britain” production team have included migration figures based on the evidence provided by some of the period’s leading historians. Please ensure you double check your calculations as we, at ITV Studios, pride ourselves on factually accurate broadcasts and any mistakes will be to the detriment of the channel and the edification of our audience.

410AD Migration Figures REF#5670021234
